Area Variance Continued

1. Explain how no undesirable change will be produced in the character of the neighborhood; nor a detriment to nearby properties created by granting the area variance.

Shed will be approximately as high as the fence along the side of the yard I am putting it and the width of the fence will mostly conceal the shed from my neighbor. The shed will be adjacent to the home far back from any roads.

2. Explain why the benefit sought by the applicant cannot be achieved by some method, feasible for the applicant to pursue, other than an Area Variance.

The shed will provide my elderly aunt to store and access gardening equipment more easily as it will be near her front door. This helps reduce her having to walk farther & dis around in the garage/basement for these things.

3. Describe whether the requested Area Variance is substantial.

NOT SUBSTANTIAL.
12x10 area for foundation and shed.

4. Explain how the proposed variance will not have an adverse effect on the physical or environmental conditions in the neighborhood or district.

Does not pose physical or environmental detriment to neighborhood. The shed would not obstruct sight-lines when turning on/off Aves B & C. will provide a storage space that permits less activity in and around garage on road for neighbors to see.

5. Explain whether difficulty is self-created. (Consideration is relevant, but should not necessarily preclude the granting of the Area Variance.)

NO.

For Use Variance Applications, please complete the following:

NA

Describe the request use:

1. Explain why the application cannot realize a reasonable return without the Use Variance, as demonstrated by the content financial evidence.

2. Explain how the alleged hardship relating to the property is unique, and does not apply to a substantial portion of the neighborhood.

3. Describe why granting the requested use variance will not alter the essential character of the neighborhood.

Explain whether the alleged hardships have been self-created.

Describe in Detail your request:

Explain why granting the request is consistent with the public health, safety, and general welfare of the community, including the public or commercial inconvenience of the applicant.
