Area Variance Continued

1. Explain how no undesirable change will be produced in the character of the neighborhood; nor a detriment to nearby properties created by granting the area variance.

no environmental issue. no appearance changes to the neighborhood. no obstruction to traffic or neighboring properties

2. Explain why the benefit sought by the applicant cannot be achieved by some method, feasible for the applicant to pursue, other than an Area Variance.

Winter St ext is a busy road. without a 6 Ft fence we would not be afforded any privacy in our yard. a 4 Ft fence installed along Winter St on the slope wouldn't provide any privacy. Plus we have 2 dogs that would not be protected with a 4 Ft fence.

3. Describe whether the requested Area Variance is substantial.

not a substantial change

4. Explain how the proposed variance will not have an adverse effect on the physical or environmental conditions in the neighborhood or district.

There would be no environmental disturbance nor any adverse effect to install a 6 Ft fence compared to a 4 Ft fence

5. Explain whether difficulty is self-created. (Consideration is relevant, but should not necessarily preclude the granting of the Area Variance.)

The busy road of Winter St Ext nor the incline/slope of the property to Winter St is not in anyway self-created.

For Use Variance Applications, please complete the following: N/A

Describe the request use: _____

1. Explain why the application cannot realize a reasonable return without the Use Variance, as demonstrated by the content financial evidence.

2. Explain how the alleged hardship relating to the property is unique, and does not apply to a substantial portion of the neighborhood.

3. Describe why granting the requested use variance will not alter the essential character of the neighborhood.

Explain whether the alleged hardships have been self- created.

Describe in Detail your request:

Explain why granting the request is consistent with the public health, safety, and general welfare of the community, including the public or commercial inconvenience of the applicant.

In the near future we would also like to have a pool installed. The 6 Ft Fence would provide the children of our neighborhood the safety that should be afforded to them and their families by securing of property.
